

Patient Centered Medical Home

A Patient Centered Medical Home puts patients at the center of the health care system, and provides primary care that is “accessible, continuous, comprehensive, family-centered, coordinated, compassionate, and culturally effective.”

MidState Medical Group is in the process of becoming a Patient Centered Medical Home (PCMH) to improve our quality and provide consistent care to all of our patients. Please take a moment to fill out the information below to help us serve you.
